

Here is a list of some of the many awesome resources Grants Public Library has to offer our community:

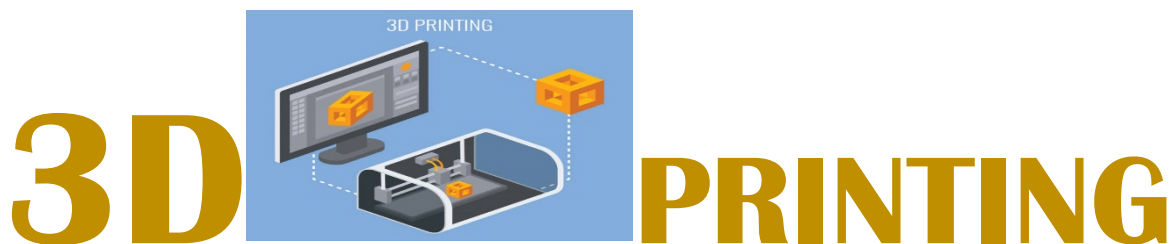

## Interlibrary Loan

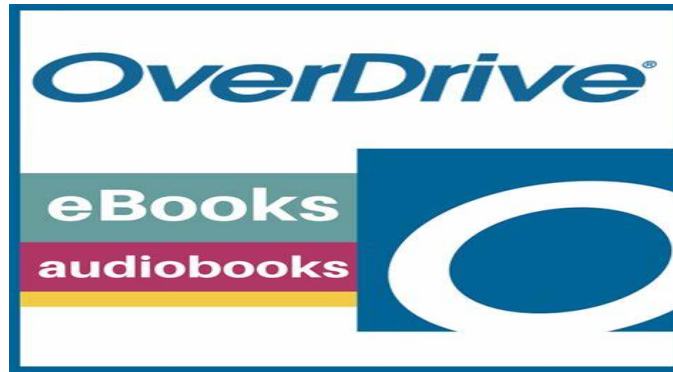

Through interlibrary loan we request a title we may not have in our collection from another library and in turn loan it you, our patrons. It's an easy, FREE process. Just ask any of our staff for info.

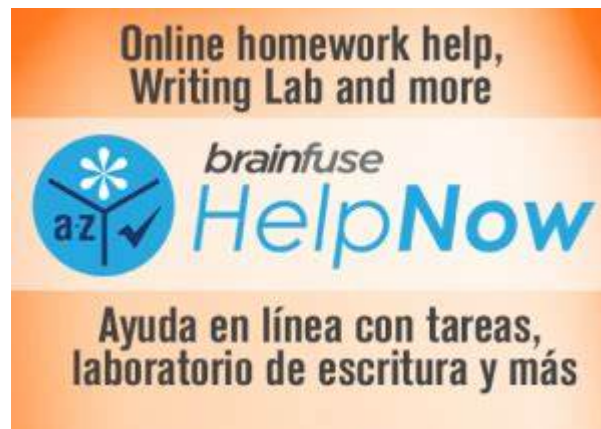

Did you know we have a green screen available for public use here at the library? Students can come in and film their presentation against the green screen then add their own background in editing. Do you have a PSA or advertisement you'd like to shoot, we have the green screen. Possibilities are endless.

Need some 3D printing done. We have the capabilities to do so. Bring your laptop or flash drive with your project and we can help you hook it up to our 3D printer to make the image come to life.

With OverDrive/Libby you can access hundreds of Audiobooks and Ebooks online. Another FREE resource you can take advantage of with your library card. Quick and easy. Search <https://www.overdrive.com>

Brainfuse has many wonderful help tools for everyone from elementary school to high school to college to adults entering into the work force. Live online support for math & reading tutoring as well as GED test prep. ACT and SAT study guides and pretests. Resume templates, job search links. Easy to find through [elportalnm.org](http://elportalnm.org) which also has some great resources. Once again, its FREE!!

You can also go onto our website at

<https://www.cityofgrants.net/library>

for these and other links and resources for the Grants Public Library. As always feel free to ask any one of our wonderful staff for assistance and we'll do our absolute best.
